NEW BOOK RELEASE

From Jordan to Jersey: *Go Back to Your Country!* is an Inspirational, 21st Century Immigration Story

Issa Musharbash Overcame the Odds to Go from Below Minimum Wage Worker to CEO

New York City, NY, January 18, 2021 - At the age of 12, Issa Musharbash, an immigrant from Jordan, was beaten bloody on the streets of Jersey City in a heinous, hate-crime. During the attack, one of the assailants further tormented him by saying, “Go back to your country!” But the United States was, in fact, his country. And his American dream would not be denied—today, Musharbash is the founder and CEO of Provident Legacy, a family of real estate industry companies.

In *Go Back to Your Country (or Stay and Defy All Odds)*, Musharbash chronicles an amazing first-person account of how he overcame hardships, trials and tribulations, and prejudice. In addition to being a captivating immigration story, *Go back to Your Country*, is a practical book about family, faith, and business. There is even a love story intertwined.

Community leaders and business leaders are praising *Go Back to Your Country (or Stay and Defy All Odds)*.

“Go Back to Your Country is the immigration story of the twenty-first century,” said Willie Alfonso, Spanish chaplain of the New York Yankees.

“Go back to Your Country is an awe-inspiring book,” said Jimmy Davis, mayor of Bayonne, New Jersey.

In writing his first book, Musharbash sought to detail his “legacy” to his three children and let them know that with hard work, perseverance, and faith, anything is possible.

He also wants readers to not only be inspired by his story, but likewise dream big dreams or rekindle dreams that may have been forsaken. That’s the kind of contagious hope that abounds in *Go Back to Your Country*.

Go Back to Your Country (or Stay and Defy All Odds) is available at **GoBacktoYourCountry.com**.
